Total Hard Surface (sf)	Start Date	Estimated Project Length (mo)	Previous Permit No. (If applicable)

Submittal Checklist

- SWPPP.** The application shall include a Storm Water Pollution Prevention Plan which meets the criteria set forth in UPDES Storm Water General Permit for construction activities, UTR300000.
- NOI.** The application shall include a copy of the Notice of Intent filed with the State of Utah.
- Discharge Rate.** Discharges to the storm sewer system shall be designed so that the discharge to the storm sewer system does not exceed 0.1 Cubic Feet Per Second (cfs) per acre.

The applicant shall file the application on or before the following dates:

- Subdivision:** The date that the applicant submits the preliminary subdivision development plat application
- Site Plan:** The date that the applicant submits a site plan application or amends site plan.
- Building Permit:** The date that the applicant submits a building permit application if the applicant proposes to construct a building on an existing lot or parcel.
- Land use Permit:** The date that the applicant submits a land use permit application.
- Other:** at least two (2) weeks before the developer intends to perform any type of work not listed above that would require a Storm Water Construction Activity Permit pursuant to this Chapter.

Failure to acquire a required Storm Water Construction Activity Permit is grounded for tabling a related subdivision application, site plan application, conditional use permit application, or building permit application. It is unlawful to commence work (move dirt) on a development site before obtaining a required Storm Water Connection Activity Permit.

Note: A pre-construction meeting is required before performing any on-site earth work, unless waived by the city engineer.

- NOT.** It is understood that a Permittee is legally responsible for the permit requirements until a NOT (Notice of Termination) is submitted. Final site stabilization, removal of temporary BMPs, and City notification is required before a NOT can be submitted. A Permittee cannot submit a NOT without final stabilization unless another party has agreed to file a NOI (Notice of Intent) to assume responsibility for final stabilization of the site.

*information regarding requirements can be found at: <http://www.waterquality.utah.gov/UPDES/Stormwatercon.htm>

Authorization

By signing below the Owner / Representative authorizes the city to enter the property to perform inspections.
